Dear Clay, 6/7/98

Here is the rest of the Posner manuscript. I think I'll title it, Whoring with History: How Gerald Posner Helps the King Assassins. Maybe "protects."

I do not have a good feeling about the Foreword and may in the future replace or rewrite it.

Heard from Jerry last evenijg. He has finally cleaned up what was keeping him busy at Hood and will be here momentarily for some searching and to replace some records.

Understand you and he finally made som kind of computer contact.

Been so long since I heard from ~~Posner~~ Weichter, almost a month, called him. Just busy with his law practise.

I know I did some repeating in the Introduction. That belong there. May not belong later and maybe does.

King is new to you so maybe you'll learn a bit as you puzzle a bit where I did not include what I should have. Please make a note of such places so I can add what may be necessary.

Thanks and best,

Harold
